

# Summit Controls Ltd. and ABB Expand Territory Partnership

September 1, 2010

We are pleased to announce that Summit Controls Ltd. has been appointed as the new representative for ABB Instrumentation in Southern and Central Ontario, adding to our existing Lambton territory.

It is our goal to provide the best products and service in the industry and maintain our strong service and support of Summit Customers throughout southern Ontario.

ABB Measurement develops, sells, delivers and services products while providing solutions to enable industrial and energy customers to operate more efficiently and profitably.

Key product groups include:

- Analytical Instruments
- Field Devices
- Flow Measurement
- Force Measurement
- Instrumentation Service
- Process Analysis
